INTERESTS

Cricket, Playing Guitar (Learning), Music

PROFESSIONAL SUMMARY

2nd year CSE-AI student and self-proclaimed **"vibe coder"** with hands-on experience in full stack development. Built 4+ production-ready projects including an AI assistant (Jarvis). Passionate about creating clean, user-centric applications that solve real-world problems with style and functionality.

TECHNICAL SKILLS

Languages: Java, C, JavaScript, TypeScript, HTML

Frameworks: Tailwind CSS, OpenCV

Core: Full Stack Development, API Integration, UI/UX Design

PROJECTS

Jarvis - AI Virtual Assistant

Tech: TypeScript, JavaScript, HTML, Tailwind CSS, Claude API

A real-time virtual AI assistant with natural language capabilities that automates tasks through single voice/text commands. Integrated with multiple APIs for enhanced functionality.

Shortify - Immersive Learning Platform

Tech: JavaScript, Tailwind CSS

A reading platform featuring a live animated background that creates an immersive vibe for studying. Includes multiple reading modes.

What's In? - Smart Recipe Generator

Tech: JavaScript

An intelligent recipe generator with a clean, intuitive UI. Solves the "what can I make?" problem by suggesting recipes based on available ingredients.

Glass Ledger - Expense Tracker

Tech: JavaScript, HTML

A minimal, sleek expense tracker with a crystal-clear interface that gives users a transparent view of their spending habits.
